

The Slique Line

Young Living's Slique line can help you manage your weight, create feelings of satiety, and provide nutritional support when combined with proper diet and exercise.

**Note: If you are pregnant, nursing, taking medication, or have a medical condition please consult a health professional prior to use.*

Slique Essence

Slique Essence is a blend that contains Grapefruit, Tangerine, Lemon, Spearmint, and Ocotea. These all work together to help control hunger.

Slique Essence can be used as a tasty addition to a hot cup of Slique Tea or as an extra splash of flavor in your water. The addition of Spearmint can also aid in digestion, while the stevia gives it a hint of sweetness without the calories.

Slique Bars

Finally, a healthy low-calorie snack that actually tastes good! Slique Bars have a medley of exotic fruits and nuts that can help you feel fuller longer, moderate unhealthy cravings, and provide healthy calories and essential nutrition.

Available in two options:
Tropical Berry Crunch
Chocolate-Coated Tropical Berry Crunch

Slique Gum

Slique Gum, although different from typical "gum" from the store, can help control hunger and food cravings as well as improve oral health.

The natural sweeteners and the act of chewing can help alleviate snack cravings. The Peppermint and Spearmint essential oils can also help freshen your breath.

Slique Tea

Slique Tea contains jade oolong tea, ocotea leaf, Ecuadorian cacao powder, and Sacred Frankincense powder. It's a great alternative to sugary drinks and sodas thanks to the natural ingredients that help support individual weight goals.

The jade oolong tea leaves are handpicked from the high mountain regions of Taiwan, and are sought after for their rich aroma and powerful antioxidant content. The Ocotea leaf was traditionally used by natives for health and wellness. This unique blend is then enhanced with Sacred Frankincense powder.

Slique CitraSlim Capsules

Slique CitraSlim is an all-natural formula that includes a proprietary citrus extract blend, which some studies suggest may help support the body in burning excess fat when used in conjunction with a healthy weight-management plan. These natural ingredients all work with your body to achieve healthy weight management, burn excess fat, increase antioxidant activity, support energy levels, and boost your metabolism.

Slique CitraSlim features a two-capsule formulation in a convenient dual-serving daily sachet.

Once-Daily Liquid Capsule: The liquid capsule delivers pomegranate seed oil, Lemongrass, Lemon Myrtle, and Idaho Balsam Fir essential oils. This blend is high in citral, which is a constituent that may increase metabolic activity.*

Powder Capsules: Three power-packed powder capsules contain a proprietary citrus extract blend, cinnamon powder, bitter orange extract, feungreek seed, ocotea leaf extract, and a customized blend of enzymes and four essential oils: Ocotea, Cassia, Spearmint, and Fennel.

Slique Shake

This vegan-friendly meal replacement shake is formulated with Slique Essence making it a satisfying start to your day. The high protein content also helps maintain lean muscle mass.

Slique Shake's berry flavor contains no artificial colors, flavors, preservatives or GMO ingredients. Slique Shake is naturally sweetened with Stevia, organic coconut palm sugar, wolfberries, and strawberries. The formula is an excellent source of dietary fiber from ingredients such as pea protein, quinoa, wolfberry, pumpkin seed protein, and alfalfa grass juice. Slique Shake also includes a fruit and vegetable blend that provides essential vitamins and minerals that many meal replacement options don't offer.
